

INTERNATIONAL INDIAN SCHOOL, BURAIDAH

FIRE DRILL-2026

“Safety first, always prepared.”

A fire drill was conducted successfully at International Indian School Buraidah. Upon activation of the fire alarm, all students, teaching staff, administrative personnel, and support staff followed the established emergency evacuation procedures.

Students evacuated their classrooms in an orderly and disciplined manner under the supervision of their teachers. Designated evacuation routes were used, and all occupants assembled promptly at the predetermined assembly area.

- * Remaining calm during emergencies.
- * Following evacuation instructions promptly.
- * Using designated emergency exits.
- * Avoiding panic

Scouts and Guides Demonstration

As part of the drill, the Scouts and Guides actively participated in a mock emergency response exercise. They demonstrated the safe evacuation and transportation of a simulated casualty (patient) from the affected area to the assembly ground using appropriate first-aid and rescue techniques. The demonstration highlighted the importance of teamwork, leadership, and emergency response skills during crisis situations.

OBSERVATIONS

- * Evacuation procedures were carried out efficiently.
- * Students and staff demonstrated discipline and cooperation.
- * The Scouts and Guides effectively performed the mock casualty evacuation exercise.
- * Attendance verification was completed successfully.
- * No injuries, incidents, or safety concerns were reported.

CONCLUSION-The fire drill was completed successfully and achieved its intended objectives. The exercise reinforced the importance of preparedness, safety awareness, coordinated action, and basic rescue skills during emergencies. Regular fire drills and safety training programmes will continue to be conducted to maintain a high standard of safety within the school community.
