

INTERNATIONAL INDIAN SCHOOL BURAIDAH INFLUENZA VACCINE -2026

"Together, let's fight influenza and promote a healthier community".

An Influenza Vaccination Programme was organised at International Indian School, Buraidah in collaboration with the concerned healthcare authorities from Ministry of health Saudi Arabia to promote the health and well-being of students and staff.

The main objective of the programme was to protect students and school staff against seasonal influenza (flu) and create awareness about the importance of vaccination in preventing infectious diseases. The healthcare team provided information about influenza, its symptoms, preventive measures, and the benefits of vaccination.

The vaccination programme was conducted under the supervision of healthcare professionals of Dr.RaziurRahman and their medical team following the necessary health and safety guidelines. Students and staff participated with the required parental consent and medical guidance.

The programme helped create awareness about the importance of immunisation, personal hygiene, handwashing, and respiratory etiquette in maintaining a healthy school environment.

The school administration appreciates the efforts of the healthcare team, teachers, parents, and all those who contributed to the successful organisation of the programme. The Influenza Vaccination Programme was an important step towards promoting preventive healthcare and ensuring a safer and healthier school community.

“Healthy children, happy classrooms, brighter futures.”
